

## ▶ STARCO HIGHSPEED

### ST-4000 & ST-6000

- ▶ Special aligned tread and profile designed to match operating conditions
- ▶ Unique designed Free Rolling Tyre for use on caravans and trailers
- ▶ Special ozone-resistant compound to offer the best protection against climatic influences – extending the life time of the tyre
- ▶ Special rubber sealant layer inside the tyre, to prevent air escapes
- ▶ All aligned with the new Tyre label legislation
- ▶ Designed and engineered in corporation with GiTi

## WHEELS FROM STARCO

- ▶ Special engineered to match caravans and trailer operating conditions
- ▶ Manufactured to meet automotive standards
- ▶ All products are as standard E-coated and can be provided in standard RAL colors. STARCO can provide the standard wheel as well as we try to meet any special requirement
